Verifying identity

When you submit an application online, we will automatically run an electronic identity check. If your Customer's identity cannot be verified electronically, we'll ask you to provide one of the following documents. Please note, a separate document will be required to verify proof of address.

Our preferred forms of identification are:

- Passport
- UK driving licence
- National Identity card

Passport

- It must be a **current full valid passport** and must not have expired (usually a full valid passport is 10 years for adults and 5 years for minors). A temporary/one year passport is not acceptable.
- For **non-EU countries**, there is sometimes no requirement for the passport to be signed. In these cases, you may accept the passport, provided the photograph is clear and gives a true likeness of the applicant. Ensure all other required information is evident.
- For **non-UK residents**, examine and photocopy all pages relating to any relevant visas. In particular ensure the visa has not expired
- **Indian Passports** – some Indian people are known by only one name and passports are produced in this format. When inputting their identification details, input the one name as the 'surname' and input a full stop in the 'first name' field.
- **Indonesian passports** – from 26 January 2011, both first name and surname should be detailed. Prior to this date there may only be one name quoted, in which case process as per the Indian passport
- **Portuguese passports** – new editions have a hologram over the face of the holder, which prevents clear scans being made. The central ID&VA processing teams will not reject photocopies of Portuguese passports for this reason.

Please scan all the relevant pages, making sure the following is clearly visible: signature (see note about 'young persons' and 'non EU countries' above), photograph, date of issue, passport number, country and place of issue and all pages relating to visas (non-UK residents).
